

Organization for Economic Cooperation and Development (OECD) Program for International Student Assessment (PISA)

This report was generated using the PISA International Data Explorer. <https://pisadataexplorer-pp.oecd.org/ide/idepisa>

Averages for age 15 years PISA science scale: overall science, by All students [TOTAL] and jurisdiction: 2006

Year/Study	Jurisdiction	All students	
		Average	Standard Error
2006	Japan	531	(3.4)
	Korea	522	(3.4)

NOTE: The Reading, Mathematics and Science scale ranges from 0 to 1000. Some apparent differences between estimates may not be statistically significant.
